Created November, 2011. 2012 Prescription Drug List – Golden Rule Advantage Four-Tier 1/12

Note: Benefits may not be available for all drugs on this list. A drug on this list is covered under your insurance plan only if the condition for which it is prescribed is also covered under your insurance plan. For example, if treatment of mental disorders is excluded from your coverage, drugs prescribed in connection with that treatment are also be excluded from your coverage.

Your Prescription Drug List:

Helping you get the most out of your pharmacy benefit.

This Prescription Drug List (PDL) outlines the most commonly prescribed medications for certain conditions and divides them into tiers. Your costs may change depending on a medication's tier placement.

To help you better use your pharmacy benefit, this guide answers commonly asked questions about your PDL.

Go to the “Customers” link at www.goldenrule.com for complete and up-to-date PDL information.

Since the PDL may change, we encourage you to visit our website, www.goldenrule.com to find information on what your pharmacy benefit covers, possible lower-cost options, and how the costs of medications compare.

The screenshot shows the UnitedHealthOne website header with navigation links: Home, About Us, Health Plans, Find a Doctor, Customers, Brokers, Newsroom, and Contact Us. Below the header is a banner for "Providing Services to Customers for Over 65 Years" with a "GET QUOTE NOW" button. The main content area is divided into three columns: "Find a Doctor Near You" with a "Find a Doctor" button, "Customer Service" with contact information for current and non-current customers, and "Questions About Your Prescription (Rx) Drug Coverage?" with links to download PDF files and a "Search" button.

Welcome to your 2012 Four-Tier Prescription Drug List

We want to help you better understand your medication choices. Your pharmacy benefit offers flexibility and choice in finding the right medication for you. To help you get the most out of your pharmacy benefit, we've included some of the most commonly asked questions about the PDL.

What is a PDL?

A PDL is a list of commonly prescribed medications placed into tiers. The PDL includes both brand and generic prescription medications approved by the U.S. Food and Drug Administration (FDA). The PDL is reviewed periodically and may change. It is created at a point in time, it is not a complete list of medications and not all medications listed may be covered under your plan. Please look at your policy/certificate¹ to see what medications are covered under your plan.

How do I use my PDL?

When choosing a medication, you and your doctor should consult the PDL. This guide is organized by common medical conditions. Then, within each medical condition section, medications are listed by tier.

If your medication is not located in the PDL please visit www.goldenrule.com or call the toll-free member phone number on the back of your health plan ID card.

What are Tiers?

Tiers are the different cost levels you pay for a medication. Each tier is assigned a cost, which is determined by your health plan. This is how much you will pay when you fill a prescription. Tier 1 medications are your lowest-cost options. If your medication is placed in Tier 2, Tier 3 or Tier 4, look to see if there is a Tier 1 alternative. Discuss your options with your doctor.

Check your policy/certificate or visit www.goldenrule.com for information about your pharmacy benefits.

 	 	 
Tier 1 Your lowest-cost medications	Tier 2 and 3 Your midrange-cost medications	Tier 4 Your highest-cost medications

Who determines medication tier placements?

The UnitedHealthcare PDL Management Committee makes tier placement decisions. The PDL Management Committee is comprised of senior level UnitedHealth Group physicians and business leaders. The Committee's goal is to help ensure access to a wide range of medications, while helping to control health care costs for you and your health plan.

¹Policy/certificates include a Summary Plan Description (SPD) or a Certificate of Coverage (COC)

What factors impact tier placement decisions?

The PDL Management Committee decides tier placement based on several factors including:

- ▶ **Clinical information** from the UnitedHealthcare Pharmacy and Therapeutics Committee about the safety and effectiveness of different medications.
- ▶ **The medication's costs** and other economic factors.

When do medications change tiers?

The PDL quick-guide is updated twice a year, January 1st and July 1st. Medications may move to a higher tier or be excluded from benefit coverage on these dates. Medications can move to a lower tier at any time throughout the year. Throughout the year we also review generic and brand-name medications and decide which tier each should be placed. If a new generic launches, tier changes can occur at that time for its brand counterpart. These reviews may cause medications to change tiers at any time.

When a medication changes tiers, you may have to pay a different amount for that medication. These changes may occur without prior notice to you. For the most current information on your pharmacy coverage, please call the toll-free member phone number on the back of your health plan ID card or visit www.goldenrule.com.

Why are there notations (SL) next to certain medications in the PDL, and what do they mean?

As you go through this list, you might notice some medications are noted with symbols next to them. The notations refer to our pharmacy programs. Your policy/certificates determines how these medications may be covered for you but the symbols are guidelines to help you check what medications may be impacted.

To learn more about a pharmacy program or to find out if it applies to you, please visit www.goldenrule.com or call the toll-free member phone number on the back of your health plan ID card.

Here is a quick symbol overview:

Should I talk to my doctor about OTC medications?

An over-the-counter (OTC) medication may be the right treatment for some conditions. Talk to your doctor about OTC options. These medications are not covered under your pharmacy benefit, but they may cost less than your out-of-pocket expense for prescription medications.

What is the difference between brand-name and generic medications?

Generic medications contain the same active ingredients as brand-name medications, but they often cost less. After the patent on a brand-name medication expires, other companies can manufacture an FDA-approved and chemically-equivalent version of the medication. These types of medications are called generic medications. Many times, the same company that makes a brand-name medication also makes the generic version.

What if my doctor writes a brand-name prescription?

The next time your doctor gives you a prescription for a brand-name medication, ask if a generic equivalent or lower-tier alternative is available and if it might be right for you. Generic medications are usually your lowest-cost option, but not always. Visit www.goldenrule.com to make sure.

Are you taking a specialty medication?

Specialty medications are managed through our Specialty Pharmacy Program which offers personalized member support. The program also offers access to on-call pharmacists available 24 hours a day, robust clinical and adherence programs and support coaching on lower-cost medication options. Please note your specialty medication may not be listed in this guide. Please visit www.goldenrule.com for more information.

How do I access updated information about my pharmacy benefit?

Since the PDL may change, we encourage you to visit www.goldenrule.com or call the toll-free member phone number on the back of your health plan ID card for more current information.

What if I still have questions?

Please call the toll-free member phone number on the back of your health plan ID card. Representatives are available 24 hours a day (except Thanksgiving and Christmas).

Medications are categorized by common therapeutic conditions in this PDL for ease of reference only. These categories do not determine coverage for the medication for your condition. Your policy/certificates determines how these medications may be covered for you.

In certain documents, the Prescription Drug List (PDL) was referred to as the "Preferred Drug List (PDL)." This change in descriptive terms does not affect your benefit coverage. If you have pharmacy benefit coverage, you may learn more about your benefit by visiting www.goldenrule.com or by calling the toll-free phone number on the back of your ID card. If you are not currently enrolled for pharmacy benefit coverage, you may access www.goldenrule.com for additional information.

The PDL may change periodically. Where differences are noted between this PDL reference guide and your policy/certificates, the policy/certificates will govern.
